

## F&S Subspecialty Radiology Network

**Franklin & Seidelmann Subspecialty Radiology (F&S) is a national, full-service teleradiology provider of final, preliminary and subspecialty reports, day or night. F&S has the only dedicated subspecialty teleradiology network in the U.S with more than 100 radiologists with the following backgrounds:**

- Board Certified musculoskeletal (MSK), body, and cardiovascular specialists, and neuroradiologists with CAQs
- Fellowship trained
- Combined, radiologists are licensed in 50 states
- All live in the U.S.
- Advanced modality training - 1.5T, 3.0T MRI, MDCT, PET/CT
- Have interpreted at least 10,000 cases in their subspecialty area and must pass challenging case testing before joining
- Practice a proactive, collaborative approach in working with physicians, medical staff and each other
- Utilize a standard F&S lexicon to increase productivity and maintain a high level of quality and consistency across reports.
- Participate in ongoing training and education programs such as the F&S "All-Star CME Lecture Series" in addition to evaluations through the internal peer review and QA processes.

**The F&S radiology network consists of experienced professionals who are academic leaders and national and international speakers. Combined experience and academic highlights of the team are described below:**

***"I joined Franklin & Seidelmann because of their good reputation, focus on providing quality service, and their commitment to continually build upon their radiologists' level of expertise through training programs. The biggest benefit to me is the extra volume of subspecialty cases I can use to supplement our teaching program."***

**Dr. Donald Resnick**

Professor of Radiology in Residence, University of California, San Diego (UCSD) School of Medicine; Chief, Osteoradiology Section, Veterans Administration Medical Center, San Diego, CA; and Clinical Associate, Scripps Clinic, Department of Radiology, San Diego, CA,

***"I joined Franklin & Seidelmann because it allows me to maintain a higher level of expertise in musculoskeletal interpretations, enabling me to be a more effective teacher. This is important because the more you read, the better you are. I also found F&S to have a better infrastructure model, IT support and organization due to experienced personnel."***

**Dr. Javier Beltran**

Chairman, Department of Radiology, Maimonides Medical Center, Brooklyn, NY  
 Clinical Professor of Radiology, Mount Sinai School of Medicine, NY, NY
